In the absence of fair valuation of the preference shares and the quantification on account of extinguishment of the...

About this report

The Company Check is a data and information service operated by TCC Information Private Limited, which compiles public records on Indian companies, LLPs, directors and brands into one place and presents them in a consistent format.

This report was generated specifically at the request of the client named below. Every figure in it has been collected, produced and mapped by machine from public and authentic sources, without manual editing, and is reproduced here as it stands in those records.

The report is intended for the client's sole and exclusive use and must not be sold, licensed, re-published or redistributed in any manner whatsoever, in whole or in part.

Data sources

Ministry of Corporate Affairs (MCA) — company master, directors and signatories, charges, annual filings (AOC-4 / MGT-7)
as on the last screening date shown on the cover

Stock exchanges (NSE / BSE) — listed companies only: prices, quarterly results, shareholding pattern
as on the exchange's last published update

GST network (GSTN) — registrations and return-filing status
as on the last filing date shown against each GSTIN

EPFO — provident-fund establishments and monthly remittances
as on the last wage month credited

Indian courts — eCourts (district and high courts), Supreme Court, NCLT / NCLAT
as on the last hearing date in the cause list

Credit rating agencies — rating rationales published by the agencies
as on the rating date printed with each rating

Reserve Bank of India (RBI) — overseas direct investment (ODI) returns
as on the reporting period shown in the section

How to read the figures

- **Money unit.** Amounts are shown in the unit chosen at download. This report uses **₹ Crore (one crore = ten million rupees)**. Column headings repeat the unit where it applies; exchange data that is quoted per share (prices, EPS) is in rupees.
- **Negatives** are printed in brackets, for example (1,250) for a loss or an outflow.
- **A dash ("-")** means the item is not on record for that period, not that it is zero.
- **Derived ratios** (margins, returns, leverage, growth and the health score) are computed from the filed figures in the tables and are not reported by the company.
- **Charts** are drawn from the same tables they sit above; where a series is missing from the filings the chart is omitted rather than estimated.
- **Financial years** run April to March unless the company reports a different year end; "FY 2024-25" is the year ended 31 March 2025.

Limitations

- **Accuracy of filings.** The information is only as accurate as the documents filed by the company and its officers with the registries listed above; The Company Check does not audit or verify those filings.
- **Registry delays.** Public registries update with a lag. A recent appointment, charge, filing or court order may not yet appear, and a status shown here may have changed since the record was last screened.
- **No guarantee.** While reasonable care has been taken to collect and map the data correctly, the whole process is automated and no guarantee of accuracy, completeness or fitness for a particular purpose is extended.
- **Independent verification.** Users are strongly encouraged to verify the information independently before relying on it for any decision that may have financial, legal or commercial consequences. This report is not investment, credit, legal or tax advice.
